Koransha

B2 2-100J

Visit the Koransha booth to see Pinstripe. The collection's exquisite relief is produced by controlling the thickness of the glaze to produce a fine and uniform texture the likes of which cannot be created by hand. This is further accentuated through the use of a lapis lazuli blue to impart rich depth. Made in Arita, Japan, the collection includes flat plate, large plate, medium plate, soup bowl (with and without handles), cup and saucer and a candy pot.
